

ALUMINUM LANDSCAPE

DUMP BODIES

www.CRYSTEEL.com

Crysteel's new Aluminum Landscape body is ideal for landscape contractors and municipalities looking for strength, durability and lightweight efficiency. Combined with the Lo-Boy® subframe hoist, the Aluminum Landscape body offers the power and reliability needed to get the job done, everyday.

Why Aluminum?

Aluminum construction offers landscape contractors the durability they need to tackle the toughest jobs and the reliability they want for long-term return on investment.

Benefits of Aluminum

- Corrosion Resistant
- Lightweight
- Increased Payload Capacity
- Lower Maintenance Costs
- Fuel Savings

Standard Features

- LED Lighting
- 50" Wide Side Door
- Full Height Double Barn Door with Double Door, Trailer Style Hardware
- Rubrails Integral with Side
- Full Depth Corner Posts

Side Heights	40"	50"
Side Material	1/8" 5052-H32	
Side Door Width	50"	
Side Door Height	40"	50"
Rear Height	40"	50"
Rear Style	Full Height Double Barn Door	
Floor Material	3/16" 6061-T651	
C8 Channel Longbeam Material	6061-T6	
Full Depth Corner Post Material	5052-H32	
Approximate Body Capacity	8.5 yards	13.7 yards
Approximate Body Weight (without hoist)	950 lbs	1342 lbs

Available Options

- 42" Full Cabshield .125", 5052-H32 material
- Bolt-on Pull Out Ladder Kit
- Spring Tarps or Pull Tarps
- Plastic Fenders

Optional Cabshield

Optional Ladder

LO-BOY® HOIST

More lifting capacity.

Built for increased lifting capacity compared to standard hoists, the LB510 offers the advantage of reduced weight, yet incorporates added strength for power lifting. Plus, it's easy to operate! The model is specially designed to fit between the body longbeams to keep the center of gravity lower.

- Double acting hydraulics provide power both up and down for better control of the load, and for achieving exact dump angles.
- Cylinder tubes are high strength steel, honed for a precision fit.
- Screw-on caps and poly-pak seals are durable and dependable.

Crysteel's Teflon® composite bearings on cylinders and center pivots never need lubrication or maintenance and offer years of trouble-free performance.

Teflon is a registered trademark of DuPont.

Crysteel Lo-Boy hoists are made in the USA and rated by the NTEA.

Full length subframe.

LB510 hoists include a full length subframe for added strength. For added safety, a body prop comes factory installed.

Quick Install Hoist Standard.

The Lo-Boy hoist is mounted to all Aluminum Landscape Bodies at the factory.

High pressure hydraulics.

- Produce more lifting power with less weight.
- Precision cylinders are high strength honed steel tubing. Shafts are hard chromed.
- Molythane poly-pak seals outlast and outperform any on the market.

Greaseless Bearings

LB510 LOAD CAPACITY						
Body Length (ft)	9			12		
Cab to Axle (in)	72	72	60	108	96	84
Rear Overhang (in)	6**	12**	16**	12**	16*	28*
LB510 Capacity (tons)	9.8	11.2	13.7	7.8	9.3	11.8

*Capacities at 45 degrees, water level load, includes body weight.

**Capacities at 50 degrees, water level load, includes body weight.

Lo-Boy hoist mounts low.
