

**RAZOR**

# HLA RAZOR SNOWPUSHER

## Easily clear snow with a new Razor from HLA Snow.

Get a cleaner shave in one pass with the Razor Snow Pusher from HLA Snow. Each 24" wide segment of the mouldboard floats independently allowing it to adjust to the contours of the ground.

Each segment is equipped with a steel cutting edge, ensuring each blade cleanly shaves the snow as it passes across the ground. The cutting edges are backed with a spring trip, flipping the edge back as it strikes an obstacle. This not only reduces hang up, but also helps to prevent unnecessary shock to the operator and the equipment. When damaged or worn, the cutting edge can be easily reversed or replaced individually as required.

The dual tripping mechanism is built around a single expansion

spring for each of the 24" segment. Increasing or decreasing the spring tension allows the segment trip to be adjusted to suit the environment you're clearing, making this the best tool in your fleet.

A durable frame provides all the support that the blades need to handle tough jobs such as stacking. Parallel square tubes provide a solid anchor point for the parallel linkage, ensuring that the mouldboards maintain perfect vertical travel throughout the tripping action.

Razor Snow Pushers from HLA Snow, it's a black or white decision.

Part #	Width (ft.)	Number of Sections	Mouldboard Height (in.)	Weight (lbs.)
RZ450010	10	5	34	2,550
RZ450012	12	6	34	2,915
RZ450014	14	7	34	3,295

**MAX OPERATING WEIGHT: 25,000 lbs.**

**1 24" Floating Segments**

Floating segments rise and fall to follow the terrain for a total float of 6 inches.

**2 Steel Cutting Edge**

Our cutting edges are designed to be easily replaceable and are reversible to give you twice the life.

**3 Spring Trip**

Each feature features a spring trip cutting edge that activates when an obstacle is struck.

**4 Float Range Indicator**

Helps the operator set proper loader height for optimal section travel.

**5 Square Tube Frame**

Solid structure prevents flexing.

**6 Steel Linkage**

Each segment is attached to the frame using parallel steel linkages to maintain mouldboard alignment and allows for stacking.

**7 End Plates**

End plates float with the end segment and feature a floating skidbar that follows ground contour.

**8 Flexible Mount Options**

Allows a wide range of adaptors to attach to the Razor.

# Stay in the Cab it's an **HLA**

For the last 20 years HLA Snow has been committed to providing our customers with innovative equipment. With a comprehensive line up of snow and ice management tools HLA Snow has the right blade, bucket, or spreader for your team.

HLA Snow products are engineered and field tested by our dedicated staff. They bear the cold and scrape their knuckles in real world environments to ensure that when you receive your HLA product, it performs as promised.

On those cold dark nights when the snow won't stop falling, you can stay in the cab and rest easy because it's an HLA.
