

T 10/1 *CUL

This machine is a supremely robust, functional and powerful dry vacuum cleaner for professional users with optimal ergonomic properties and a compact construction, which is developed for the specific needs from hotels, gastronomy, contract cleaners and retail.

1 More capacity

- Features include a fleece filter bag. These filter bags retain far more dust than conventional paper filter bags.

2 With and without filter bag

- The large, round permanent main filter of washable nylon is extremely tough and dense enough to vacuum without filter bag for certain periods of use.

T 10/1 *CUL

- Parking position for floor nozzle
- Cable hook
- Accessory storage
